

CORPORATE TRAINING JUSTIFICATION PACK

Prepared for internal procurement and security governance review

1. Executive Summary

Hacking101 — Australian Cyber Security Academy Pty Ltd — delivers practical cyber-security training founded on real offensive-security and incident-response experience. Our programmes are mapped to ASD Essential Eight, ISM, and NIST CSF. Enrolment evidence: 384 active students Q1–Q2 2026, 91% placement within 90 days (2025 cohort, n=247), zero privacy disclosures in 36 months, lab uptime 99.97% over 12 months.

2. Regulatory Alignment

Framework	Coverage
ASD Essential Eight (Maturity Model)	ML1–ML2 per programme
ASD Information Security Manual (ISM)	Core controls mapped module-by-module
NIST Cybersecurity Framework v2.0	Identify · Protect · Detect · Respond
NIST SP 800-61 (IR)	Full DFIR pathway
Privacy Act 1988	Data-handling exercises embedded
MITRE ATT&CK Enterprise	Adversary emulation mapping

3. Employer Outcomes

• 89% of 2025 cohort placed or promoted within 90 days. • Employers: financial services, state government, Big Four, MSSPs, critical infrastructure. • 52 verified active employer partners.

4. Operational Evidence

• Lab uptime 99.97% · Platforms: Wireshark, Burp Suite Pro, Volatility, Autopsy, KAPE, Metasploit. • Live labs: 14/14 subnets · 1,240 targets · <25 ms latency. • Hosted in secure AU-East datacentres; data in Australian jurisdiction. • ABN, public liability, professional indemnity — available on request.

5. Pricing

Tier	Price (AUD, GST incl.)	Includes
Essential	\$1,490 / course	HD videos, labs, certificate, community
Professional	\$2,990 / course	Essential + lab reviews, coaching, CVIR, priority support
Enterprise	\$12,000 / yr min	Custom paths, SCORM, dashboards, success manager
